

Time in Malta "Separation"

You stood by me through my darkest hour
You never left me
You stayed with me till I came around
I remember those nights when you really touched my
soul
You left a light on
You knew I needed to learn some more
I'm just an empty shell
My soul has been sick for years
Fill me with your love
Touch my soul!
Separation, Separation, Separation...
From your heart

Burn my eyes
Burn my flesh
Burn my will
Empty inside
Unbearable separation
From your light

You stayed with me in my darkest hour
You stayed with me till I came around
Burned by fire, Burned by fire, Burned by fire...
Wash me

Free from the pain from this world
Free from the pain free at last!
