### "A Long Way Down"

Visit ["A Long Way Down"](#) on MotoLyrics.com

When I look into your eyes  
it worries me what I see  
some kinda storm blowin around  
darlin you know there is nothing I can do fori½ you  
cause I'm not the one you thought you found

Keep you distance  
there's no chance of holding me  
trust me - it won't do you any good  
I know this is not what I promised you  
I never seem to keep the ones I should

Don't looki½ - it's a long way down  
watch out it's a long way down  
and getting up ain't something you've got left in you  
and if you fall - I will not be around  
careful love, it's a long way down

Maybe allof this went just a little far  
a subtle response to a letter I read  
my intention was only to humble you  
seems I've brought you to your knees instead  
so careful love - it's a long way down
