"What You Really Want"

What do you want from me
what would you have me do
I could take you to heaven
if you wanted me to

What would you have me give
diamonds and gold
diamonds and gold they mean nothing to me
I could give you everything you
wanted to be

But what scares me and what tears me
is what you really want
what you really want
and what you really want is...

How would you have me live
how would you have me smile
I could learn to be happy again
if only for a little while

But what scares me and what tears me
is what you really want
and what you really want...
is nothing

For you I would give my soul
for you I would give my life
I am nothing without you, nothing without you
and you I would make my wife

But what scares me and what tears me
is what you really want
and what you really want...
is nothing
