There was nothing said of course, The last thing I have said is I'm scared I'll listen for I cannot breathe I'll listen for :)s At least I stand I've got nowhere to run and I fight I'm my own parasite and I bleed inside it's good And I bleed inside it's good this is for you in my past I can't seem to never die I can't seem to never die lightly and pass inside I'll listen for I cannot breathe I'll listen for Here I stand You're a two timing two timing whore But I want you I want you some more And what goes around comes around please And I want you so don't you hurt me You're a two timing two timing whore But I want you I want you some more And what goes around comes around Breathe you're inside you're inside I'm scared I'll listen for I cannot breathe I'll listen for :)s At least I stand I've got nowhere to run and I fight I'm my own parasite and I bleed inside it's good And I bleed inside it's gold this is for you in my past I can't seem to never die I can't seem to never die lightly and pass inside You're inside And you give me one more Why can't you feel me This part of me brings you down This part of me goes down.
