Carrier

BACK TO THE TOP

Drown in a crowd, I can't get out I can't get down off these feelings I don't believe in this applause Are you willing because of me? I got the secrecy. I am the cause of my Epilepsy? and to the barest sound I seem to not know how ripped and willing because, you're just right for the Attack to this barest dream-I cannot kill me, is it something we burn? there's something about you I can't save there's something about you I threw away rarest the creature returning to the poor humanity I think I'm good to go Oh god I think I'm crazy In time we learn the terms the colors of our skin I think we burn to do it again Now you know why I'm rottenning Now you know why I'm rotting you know you've forgotten me You know why I rot rarest the creature returning to the poor humanity I think I'm good to go Oh god I think I'm crazy In time we learn to merge the colors of our skin I think we burn to do it again Drown in a crowd, I can't get out I can't get down off these feelings I don't believe in this applause Are you willing because of me? I got the secrecy. I am the cause of my Epilepsy? and to the barest sound I seem to not know how ripped and tearing because you're just right for the Attack And to this barest dream-I cannot kill me is it something we burn there's something about you I can't save there's something about you I threw away rarest the creature returning to the poor humanity I think I'm good to go Oh god I think I'm crazy In time we learn to merge the colors of our skin I think we burn to do it again Now you know why I'm rottenning You know why I rot now you don't know why I see you try to take it Now you try to take it I see you try to take it see you try---I see you try to take me Drown in a crowd, I can't get out I can't get down off these feelings I don't believe in this applause am I willing because of me? I got the secrecy. I am the cause of my Epilepsy? now you don't know why?!!! I see you try to take it
