"Harness"

Visit "[Harness](#)" on MotoLyrics.com

I heard you good the first time but thank you, the second time really cleared me up. I put this harness so tight upon my face, I can't hardly breathe Why don't you hit me? Why don't you harness me? In time you'll run out in the open Haven't gotten too far and it suddenly buries me and I'm starting to see more aggressively and I'm stalling because I cannot believe and I'm sorry well I think the answer will always be Well I don't know you and I don't really care. I heard you good the first time but thank you, the second time really cleared me up. I put this harness so tight upon my face, I can't hardly breathe Why don't you hit me? Why don't you harness me? In time you'll run out in the open Haven't gotten too far Have you got to marry me? and I'm starting to see more aggressively and I'm stalling because I cannot believe and I'm sorry well I think the answer will always be Well I don't know you and I don't really care. Do I scare you? I'm not so scared. and I'm starting to see more aggressively and I'm stalling because I cannot believe and I'm sorry well I think the answer will always be Well I don't know you and I don't really care. I heard you good the first time but thank you, the second time really pissed me off. I put this harness so tight upon my face, I can't hardly breathe
