I'm so sick and tired  
Don't wanna take it any more  
Something's gotta give  
We are kicking down the door  
Take a full step back  
We are sick of all your shit  
Ain't no way we're leaving  
Don't you know we'll never fucking quit  
You talk your shit I still believe

We're the heroes, we're not second best  
They try to turn us down but we're still the loudest  
tonight  
We're the heroes, we're not second best  
They say we're hated but we're still the proudest  
tonight

We're the heroes, we're not second best

We're so hated n' proud!
