[CHORUS]

I'd said it before,  
I say it again  
I sing it over and over  
I love you  
Don't worry about this  
Little troubles we meet  
Listen over and over to I love u

Girl, looking my eyes there's a place  
For you inside my arms  
And you never have to question it's  
You can count on this  
Baby, we life on this

Girl, no more lonley nights  
You lay and here beside in safe  
In my arms, we can chase it  
You make clouds away, keep it?  
'Cause baby you are mine

[Repeat CHORUS]

I'd said it before,  
I say it again  
I sing it over and over  
I love you  
Don't worry about this  
Little troubles we meet  
Just Listen over and over to I love u

Girl, (you know I love u  
I don't know what I do without you  
You and me have been together we should be)

Girl, no more lonley nights  
You lay and here beside in safe  
In my arms, we can chase it  
You make clouds away, keep it?  
'Cause baby you are mine

[Repeat CHORUS]

I'd said before,  
I said it again  
I sing it over and over  
I love you  
Don't worry about this  
Little troubles we meet  
Just Listen over and over to I love u

Girl, you smile is sun I see  
It worth this thing, you are the new start  
I be, I'd said girl you are amazing  
You are my such a lady, you know I love u  
For the rest of my life ohohoh girl

I said it again  
I sing it over and over  
I love you  
Don't worry about this  
Little troubles we meet  
Just Listen over and over to I love u

[Repeat CHORUS]
