Chorus:

The voice of love will call to you  
The voice of love will call to you  
You can be sure that she's sincere  
if you hear the voice of love

When someone looks at you  
and vows that she'll be true  
If you're uncertain,  
Take her in your arms and  
Listen for the voice of love

Chorus:

Sweet is her tender sigh  
But sighs very often lie.  
though she might thrill you  
Don't give up your heart  
until you'll hear the voice of love.
