Always the war  
In nineteen eighty three  
This is the world of today  
In our mind  
There is only the money  
And there is nothing for you  
Then hours work  
No flowers in the mind  
The life runs without happiness  
Everyday dreams  
To go to a better life  
But they remain only dreams  
You are the children  
Your life will be very hard  
You are the children  
You're singing every day  
To have a friend  
To explain your little problem  
Can you say now to have it  
Sometimes you hope  
It's only an illusion  
Don't hope, it's better so  
But children power  
Will win, I am sure  
This is sweet lovers for us  
Your fantasy  
Will find new nice colours  
But now it's time to go  
You are the children  
Your life will be very hard  
You are the children  
You're singing every day  
(To fade)
