As logic stands you couldn't meet a man

Who's from the future

But logic broke as he appeared he spoke

About the Future

"We're not gonna make it" He explained how

the end will come - you and me were never meant

to be part of the future -

All we have is now -

All we've ever had was now

All we have is now

All we'll ever have is now

I noticed that he had a watch and hat

That looked familiar

He was me - from a dimension torn free

Of the future

"We're not gonna make it" He explained how

the end will come - You and me were never meant

to be part of the future -

All we have is now -

All we've ever had was now

All we have is now

All we'll ever have is now -

All we have is now
