Free Fallin, on solid ground  
Early mornings, I'm feeling tired -d  
The light keeps shining, into my eyes  
I take a deep breath, and take or die

I keep falling,  
down and down and down  
I keep on running, I'm running  
down and down and down

I'm free fallin,  
on solid ground yeah  
A late evening  
My head is spinnin

The night is rising!  
as i go lie, and take a deep breath  
and lets fly high yeah,

I keep from falling  
I'm falling down and down and down and down and  
down  
I keep on running  
Im running down and down and down down down
