I can take you up, I can tear you down
I'm a heat wave comin' at you
Takin' what I please, fallin' on your knees
You need me, yes you do.
From the moment I take over
You're gonna call me back for more
Down on your knees

Knockin' down your door, pull you to the floor
'Cause you need it, so bad
Takin' what I choose, never gonna lose
I love to drive the young girls wild
Gonna drive my love inside you
Gonna nail your ass to the floor
Down on your knees

Here I come now baby, kickin' down your door
Here I come now baby, pull you to the floor
Takin' what I choose girl, I'm never gonna lose
I love to drive the young girls wild
Drivin' my love inside of you
Down on your knees
