If I was a killer babe,
Would you let me pray for you at night,
Sing how I'd treat you right.

Would you go to the funneral,
Would you shead all your skin of me and leave,
Swear you'll never greive.

July, July won't you let me die.

If you knew I breed demon spawn,
Would you cherish, mother and nurture them,
Breast feed them my venim.

If you knew that God hated me,
Would you wield all your wrath to set me free,
let me burn with dignity.

Goodbye my darling, goodbye my sweetest sin.
