Started thinking about the times
All the drinking, how we used to laugh
It's like a picture in my mind
Only different cause it moves too fast

All the winding roads we drive
Just to feel alive, deep inside
Never thought it would end this way
Never thought it would end
Never thought it would end

Are you lost in this town Dusty?
Does the rain just bring you down?
Do you talk to anyone Dusty,
Besides the concrete underground?
I think about you Dusty
I still think about you Dusty

Semi-famous but unknown
Always came first with the party crowd
Halfway finished novel lives
Just diminish in a scene too loud
All the winding roads we drive
Just to feel alive, deep inside
Never thought it would end this way
Never thought it would end
Never thought it would end

Are you lost in this town Dusty?
Does the rain just bring you down?
Do you talk to anyone Dusty,
Besides the concrete underground?
I think about you Dusty
I still think about you Dusty
I still think about you

I know everybody hurts
I know everybody's sometimes down
Everyone is not around
Everyone's not around
Ahh...

Ahh...

Are you lost in this town Dusty?
Do the days just knock you down?
Have you lost your dreams now Dusty,
Cause I'm dreamin' about you now!
Are you lost in this town Dusty?
Does the rain just bring you down?
Do you talk to anyone Dusty,
Besides the concrete underground?
I still think about you Dusty
And does the rain just bring you down?
Did it cost you this time Dusty?
It's not the same without you around
I still think about you Dusty
I still think about you Dusty
I still think about you Dusty
I still think about you Dusty
