Don't bring your gun 'round here.

Don't need you mouthing off your fear.

It touches all, you can't build a wall.

We all have tasted tears.

A. R. Everything we know (3)

Everywhere we go. [End of A.]

We walked along the beach.

Once lovers, now we're out of reach.

The windy skies bade whispered goodbyes.

It take experience to teach.

[Repeat A.]

Nobody laughed today.

I went to watch the children play.

Their smiles on mine were frozen in time.

I'll just remember them that way.

[Repeat A two times
