You... you know me right from the start.

Like... like a caress in my heart.

There's a whisper in the wind going from the sea.

Saying this is the night to be what you wanna be.

And I wanna be with you, and touch in a way lovers do.

Though we'd only know each other for just one day,

you make it easy for me to say what I'm gonna say.

A. I wanna be loved by you, is there anything else I can do.

I wanna be kissed by you.

Wanna spend the whole night loving you. [End of A.]

A kiss is the best place to start, as words disappear in the dark

I can't hear ???

??? words of you, ??? coz' we don't need any words to do what we're gonna do.

[Repeat A.]

[Solo (Trumpet?)]

[Repeat A and excerpts from A
