Mirrored in your face is a look that says it all.

Boy I'm slow.

I've been uncertain, just couldn't be sure.

Now I know.

You say it's over, but just how long have you know

You better go now.

But as you leave me.

R. Shoot! - shoot to disable. (2)

Maybe I got careless.

Maybe it's true I ran too fast.

But on recollection it didn't do much.

So I pass.

You're such a hard man.

Why can't you take steady aim.

Just get it over with.

Don't fool around now.

R. Shoot! - shoot to disable. (2)

Oh, what a fool I was to love.

R. Shoot! - shoot to disable. (2)
