"Stay Awhile"

I'm touching your face and I can't get very far.

You travel a million miles always in the stars.

A. And crossing the clouds a fading moon.

Whispered "It's goodbye." but as it starts to die. [End of A.]

B. Stay awhile, show your love.

Child among the stars.

Just stay awhile, lay with me,

tell me who you are. [End of B.]

I've never believed in much.

What can I be worth?

I'm always a shooting star, falling down to earth.

I prayed in my heart you'd never go.

Feelings wouldn't show but now before you go.

[Repeat B.]

[Repeat A.]

Stay awhile, show your love.

Child among the stars.

Just stay awhile, lay with me, show me who you are.

Just stay awhile
