Lost in the dark the lovers embrace as the last song  
plays,

everyone makes for home.

Now it's just me and you alone.

And I won't really care if we can't meet again.

You just live your life I'm just a night to pass.

You're just a dream that couldn't last.

A. R. Take me tonight (3)

I want you, I want you - want me too? [End of A.]

No way of knowing just where my life's going.

Who cares if it's wrong or it's right,

when all I believe in is just how I'm feeling tonight.

[Singing - talking]

Take me! Take me! Take me.

R. Take me tonight.
