The ghosts of Manhattan shrieking as they fall  
From AT&T  
Someone sees it all  
Goodbye Mr. Ed

Andy's skull enshrined in a shopping mall near Queens  
Someone sees it all  
Icarus takes his pratfall, Bruegel on his head  
Goodbye Mr. Ed

Four and twenty black kids, some of them are blind  
Someone sees it all  
Tolerance of violence by the fellows with no heads  
Goodbye Mr. Ed

Some things are so big they make no sense  
Histories so small, people are so dense  
Someone sees it all  
Goodbye Mr. Ed

Never mind the Pistols, they laid the Golem eggs  
Others came to hatch them, outside the pale  
Someone sees it all  
Goodbye Mr. Ed
