well, I'm rollin' along the highway
livin' the life I'm used to
I thought about you all the way
from Little Rock to Houston
and now I can't seem to get you off my mind
but you're tied to somebody else
I think about you all the time
and I just can't help myself
sometime I don't know right from wrong
I find it easy to fall
it's hard when I've been up all night long
that's when I want you most of all
well, I'd love to see your smilin' face
if I could just take one more look
but you left me only one last trace
on the pages of your book
but words can't hold me every night
and words can't kiss me in the mornin'
look out, honey, I've got love in my heart
and it's growin' and it's burnin'
sometime I don't know right from wrong
I find it easy to fall
it's hard when I've been up all night long
that's when I want you most of all
well, I'm rollin' along the highway
livin' the life I'm used to
I thought about you all the way
from Little Rock to Houston
and now I can't seem to get you off my mind
but you're tied to somebody else
I think about you all the time
and I just can't help myself
sometime I don't know right from wrong
I find it easy to fall
it's hard when I've been up all night long
that's when I want you most of all
that's when I want you most of all
