Security

Sometimes it's hard

When I don't know where you're going

Or where you've been

I got a broken heart

Surely, if you let me know you care for me

My heart will mend

Darling, I can't wait forever

You've got to let me know or let me go (let me go)

All I'm saying is

You can't keep playing with

A heart that loves you so

Security

That's what we need, to keep our love strong

Security

Don't make me wait to long

Security

You gotta let me know if this is what you want

Security

Don't keep me hanging on

I'm sure you know

If you take the time to think about it, you will realize

Honey, now not too long ago

I used to play around but that's all over

You're my only guy

Re-evaluate this situation

Better check out your priorities

You've got to get it straight

No hesitation

If what you want is me

Security

That's what we need, to keep our love strong

Security

Don't make me wait to long

Security

You gotta let me know if this is what you want

Security
Don't keep me hanging on

Security
That's what we need, to keep our love strong
Security
Don't make me wait too long
Security
You gotta let me know if this is what you want
Security
Don't keep me hanging on

Darling, I can't wait forever
You've got to let me know - or let me go (let me go)
All I'm saying is
You can't keep playing with
A heart that loves you so
