Life can be strange  
Some things we forget or  
Rearrange in time  
Lose the past  
Tell me the truth  
Tell me how can I know  
That this new love of ours  
That it's gonna last  
I need your strength  
And I feel your warmth  
With you I felt protected from all harm  
Chorus:  
Where do we go from here it's clear  
You erase the fear in me that keeps me alone  
Where do we go from here I know  
No matter what the road  
Your love will lead me home  
What's in a name  
Is life just a game we color  
Then erase when we lose faith  
How many lives  
Tell me how many tries  
Before we get it right  
The truth is in sight  
I need your strength  
And I feel your warmth  
With you I felt protected from all harm  
Chorus  
When I felt weak, so weak  
Too scared to speak  
When I felt alone, so lone  
You took care of me  
You were there for me  
Chorus
