Endless Night,  
So afraid of the morning light,  
It will hurt a while but you'll be alright  
I'm with you  
You don't have to be afraid,  
just try to sleep  
I promise I'll stay  
In the arms of the willow  
we're waiting for the daylight  
I hold you throughout this endless night  
(uh, endless night)  
You can't sleep  
Cause you think I'll go away  
But your fear is leading you astray  
Endless Night  
There's just the two of us,  
you're safe in my arm  
so cry if you must  
Don't you know  
the world's waiting down the stream  
and in our dreams we might reach the sea

In the arms of each other

we'll say when it gets light

I hold you throughout this endless night

(uh, endless night
