

Willows Weeping

"If I Could See You One More Time"

Visit "[If I Could See You One More Time](#)" on MotoLyrics.com

I'm in a crowd but I'm all alone
Without you I'm so on my own
I've got a million things I wanna say
I woke up when it was too late
I hope I meet you somewhere tonight
Underneath the cold neon lights
If I could see you one more time
I just know you'd, I just know you'd change your mind
If I could see you one more time
I would prove, a love like ours is hard to find
I'm walking home on a one-way street
Tonight it feels like it's hard to breathe
My lungs are filled with low self esteem
You're the only one that really knows me
I'll spend the night by the telephone
I miss you so much it hurts to the bone
