The sunshine warmed your flat

It filled the room

But I didn't notice that

Cause I had you

In full bloom

I had you

Summer days in your bed

Sunny days

Summer days with you, babe

Those were sunny days

Through the window of your room

I heard birds

Singing perfectly in tune

For me and you

Deep in June

I had you

Summer days in your bed

Sunny days

Now they're all in my head

Those sunny days
