What if the world was out of trouble
What if the world was out of pain
Would it be a world that's worth living in
Without anything that's worth a thing
What if the world was out off hope
To find a place where you belong
You say to yourself you never make a it that far
No mountains to high
The answer is just around the hill

Just around the hill
Take a look from the other side
Suddenly you'll see there are many ways
To go to straight
Just walk around
Walk around that hill

What if the world was out of love
All that we do don't mean a thing
You take no chance no offering
No suffering for anything
You're asking yourself do you really want it that way
No mountains to high
The answer is just around the hill

Just around the hill
Take a look from the other side
Suddenly you'll see there are many ways
To go to straight
Just walk around
Walk around that hill

Just around the hill
Take a look from the other side
Suddenly you'll see there are many ways
To go to straight
Just walk around
Walk around that hill
Walk aorund that hill
Walk around that hill
