Look around, here are many ways to follow  
Far ahead, all I see is you  
All my dreams end in sorrow if I knew  
I could find out what to do

I was feeling so alone  
Standing waiting on my own  
But I don't know another way  
So I will wait until the day

If I could see what lies before me  
Would it show me  
(Just)  
What I need?  
If I could ever find the answer  
Would I know then how to succeed?

Would I still feel so alone  
Standing, waiting on my own?  
Will I know another way  
Or I will wait until the day?
