I've made some good friends and I've had some bad fights

And I've had my share of wasted nights

I've seen husbands take the ring off their hand

And I've seen a woman cheat on her man

Yea I've had a few paychecks blown

In the name of a good time and don't you know,

It all happened in a honky tonk

Some roadside joint full of country songs

Laughin' and cryin', misery and fun

And every kind of drinkin' that's ever been done

Yea I've seen a lot of life lived

It all happened in a honky tonk like this

I sing these songs and I play this guitar

But I ain't the first one to chase this star

So here's to the heroes of this redneck world

Waylon and Willie, Hank and Merle

They traveled round with a five piece band

And I think you know where this music began

It all happened in a honky tonk

Some roadside joint full of country songs

Laughin' and cryin', misery and fun

And every kind of drinkin' that's ever been done

Yea I've seen a lot of life lived

It all happened in a honky tonk like this

It all happened in a honky tonk

Some roadside joint full of country songs

Laughin' and cryin', misery and fun

And every kind of drinkin' that's ever been done

Yea I've seen a lot of life lived

It all happened in a honky tonk

It all happened in a honky tonk like this

Honky tonk just like this
