How can you make me
Make me feel this way
I swear you'll be the end
Of all my sunny days

I can't live with
I can't live without
You make me smile
You make me shout

The only time I really won
Was the ultimate thing to lose
You touched me, so deep
Only leaving me with the blues

Your words were like poison
Your kisses so soft and sweet
I love to hate you, precious thing
And dream of killing you while asleep

How can you make me
Make me feel like this
You told me that you loved me
You were only taking the piss
