Ce Ce Winans, Keith Crouch, John "Jubu" Smith)

I am the one, yes I created

the whole universe

Greater than anything in heaven

and in all the earth

It's my air you breathe so I'm the one

that you should please and

I am the one you need

Why should you be alone?

Chorus

I am that I am I'm all that you need

I can, yes I can, no it ain't too hard for me

Do you know, do you know do you really believe?

Everyday, every night of your life

I am

It hurts my heart indeed

to see those whom I love in need

Knowing all, I wonder why they never call on me

If you just ask then I can satisfy

you with good things and

I'll give you everything

Yes, you can have it all

I tell the sun to rise

The wind to blow

The rain to fall

I move the mountains, and the oceans

rivers great and small

Yes everything I've made I want to

hear them give me praise and

especially you my children, each and every day

Repeat Chorus

Ooh's

Repeat Chorus
