When I promised you, you could trust in me  
I meant every word that I said  
You know I understand what you're going through  
You don't have to face the night all by yourself

Just come, come to me  
It hurts me when you cry  
I won't leave you alone  
When you need a hand to hold  
I will be there, I'll always care

Sometimes the world can be such a lonely place  
And you don't feel you're where you belong  
It's in those times I wish you would talk to me  
'Cause if you're weak my love will make you strong

Just come, come to me  
It hurts me when you cry  
I won't leave you alone  
When you need a hand to hold  
I will be there, I'll always care

What matters now is the love, the love we share  
Let's pick up the pieces and go on, go on from here  
Just run to me and I'll set you free

Just come  
Leave your problems behind  
Just come  
I'll be there right all the time  
Just come  
My hands are stretched out wide  
I will be there, I'll always care

Come on, come on I'll set you free (Yes I will)  
I'll never leave your side  
I'll be right there all the time  
Come  
I'll never leave you alone  
I will be there, I'll always, always care  
Just come
