I wasn't looking - all the colours were grey  
It's hard to notice - when you're out in the rain  
All of a sudden - the colours are starting to change

You brought the light - now the darkness is gone  
The search is over - now I know you are the one  
Somebody tell me - where does an angel come from  
'Cause you're more than just the one, yeah, you're

(Chorus)  
More than what I wanted  
Everything I never had  
Gotta get right to your heart  
You can show me where it's at  
You are the miracle I needed so bad  
And you're more than what I wanted  
Everything I never had

Somethin' about you - can't say what it is  
Thought you should know that - you are the reason I  
live  
I would do anything - to make You believe, somehow  
So I'm telling you now - that you're

(Repeat Chorus)

Just let me say - I would die for you  
Give all I have to prove my love is true  
And I'll never let you go

(Repeat Chorus)
