"California Here I Go"

Visit "[California Here I Go](#)" on [MotoLyrics.com](#)

It's been too long since I settled down
I just moved in now I'm leaving town
I've seen this one, I know it well
Now I don't mind what I can't see
There's something new, a part of me
Towards the place, I'm running to
Here I go again
Closer to

California Here I go
Top down and the radio, and I know
I'm leaving it all behind
Blue skies and a new scene
Movie stars and limousines, and I know
I'm leaving it all behind, and I know
I'm leaving it all

There's nothing here to slow me down
No hand to hold, to keep me around
So I, pack my bags and I look away
Now I can see a brighter day and I know
I've seen this all before

California Here I go
Top down and the radio
And I know
This is gonna be fun
Blue skies and a new scene
Movie stars and limousines, and I know
That I must go
And I know

I heard somebody say
Don't get in the way
You'll lose you piece of mind
If you don't get there on time
I'm one step ahead
And closer too
