#### Verse

People aren't dependable  
That's one thing I know  
It happens too much  
And I can't let it go  
I know where to find  
My piece of mind

#### Chorus

I should be talking to you on this lonely night  
Caught wishing I wasn't here, here with nothing  
And then I open my eyes and see I've never been lonely

#### Verse

A sudden change  
No longer the same  
A meaning of one  
A hand full of none  
I'm looking to find  
My piece of mind

#### Outro

Who's worth more than choices  
Ten minutes of voices
