

Tindersticks "Opening Titles"

Visit "[Opening Titles](#)" on MotoLyrics.com

Look into my eyes
You see trouble every day
It's on the inside
So don't try to understand

I get on the inside of you
You can blow it all away
Such a slightest breath
And I know who I am

Look into my eyes
Hear the words I can't say
Words that defy
And they scream it out loud

I get on the inside of you
You can wave it all away
Such a slightest thing
It's just the raise of your hand

And there's trouble every day
There's trouble every day
There's trouble every day
There's trouble every day
