Running wild through my mind
That I can't sleep tonight
Running wild through my mind
That I can't sleep tonight

Like a child, like a child
I have no place to hide
Running wild
Is there no ending for the

Running wild through my mind
That I can't sleep tonight
And all the while when I can't sleep tonight
I can see you

Running wild through my mind
That I can't sleep tonight
And all the while while I can't sleep tonight
I can see you

Running wild
Running wild
Running wild
Running wild

The underside, the underside of my mind
There's a cry that I can't even reach out [unverified]
There's a fire, do you feel that too?

Running wild through my mind
That I can't sleep tonight
And all the while while I can't sleep tonight
I can see you

Running wild
Running wild
Running wild
Running wild
