Stand in cue
Disposing time
As much as one could find
Crowded, packed
Inter-react
Bus them in
Candid fact
Does it make you think that
This is really overrated
Taking trains
Initial plans
Cab what's left of the town
Make you up
1 a.m.
Hours left
Then out again
Does it freak you out that
This is really overrated
Age resolved, invisible
As we become invincible
Now to face
The massive crowd
Mad embrace, system loud
Burning out
Sleep defied
Out again
Tomorrow night
Does it make you think that
This is really overrated
