(Thom Bell, Linda Creed)

Late at night
When the world is safe within their dreams
Late at night
An empty feeling creeps within my soul
I feel so lonely
So I go into the darkness of the night all alone
I walk the streets until I find someone
Who is just like me
Looking for some company

Children of the night
Late at night
Children of the night
Children of the night
Children of the night

A restless feeling takes control of me
And I can't fight it
Late at night
I feel the need of someone who likes me
Needs understanding
(So) once again I'll search the darkness
Of the night all alone

I'll walk the streets until I find someone
Who is just like me
Looking for some company
