=====  
Live At Luther - Cry Freedom  
=====

How can I turn away  
brother sister go dancing through my head  
human as to human  
the future is no place  
to place your better days

cry freedom cry  
from a crowd ten thousand wide  
(hopelessly hope)  
that this crowd will not subside  
let this flag burn to dust  
and in you our filled design is raised  
while you wait head and hands hands in prayer  
and fall into a dreamless sleep again  
and you wait  
and hands and feet are all allied  
but wall between divide us  
hands and feet are all allied  
but gold between divided souls slip away

there was a window and by it stood  
a meadow in which he could see himself  
he thought of something  
something he had never had  
but hoped would come had gone

cry freedom cry  
from a crowd ten thousand wide  
while you wait  
hands and feet are all allied  
but gold between divide us  
hands and feet are allied  
but walls between divided soul slip away

in this room stood a little child  
and in this room this little child he would remain  
until someone might decide

to dance this little child across this  
into a cold dark space  
where she might never trace away  
across this crooked mile  
across this crooked page

cry freedom cry  
from deep inside  
where we are all confined  
and you wait there

how can I turn away  
brother sister go dancing through my head  
human as to human  
the future is no place  
to place your better days

hands and feet are all allied  
but gold between divide us  
hands and feet are all allied  
but worlds between divide us  
hands and feet are all allied  
but faith between divide us  
hands and feet are all allied  
but walls between divide us  
hands and feet save the life  
hear what I say hear what I say

how can I turn away  
brother sister go dancing through my head  
human as to human  
the future is no place  
to place your better days
