"Falling"

when i met you you were eating ice cream
when we first met you fell upon your face
and now i cant get you outta my head
no i, i cant get you out of me

[CHORUS]

i'm falling and i cant get up now
i'm falling and i realize
that you're the one for me
and you have to be
falling, falling for me too

this feeling is screwing me up
this feeling, i dont want it ever to stop
and now i cant get you outta my head
no i, i cant get you out of me

[CHORUS] x4
