Hey goodbye, I guess I messed up again.  
Thought I'd change, but still I'm the way I am.  
I know I'll always be the same and I accept the blame.  
For the sorry state that I'm in.

Hey goodbye, there's no use in trying.  
Cause if I stay, there's no end to the crying.  
She deserves way more so I'm walking out the door.  
For once I'll be kind and I'll make up her mind.

#### Chorus

She's so sick of me begging forgiveness.  
Cause you and I, we both know I did this.  
I'm jaded, I'm hated your the only friend of mine.  
Please to meet you, hello goodbye.

Hey goodbye, let's open a bottle.  
And forget about an empty tomorrow.  
It's hard to face the truth, that it's just me and you.  
For once I did what's right and I made up her mind.

She's so sick of me begging forgiveness.  
Cause you and I, we both know I did this.  
I'm jaded, I'm hated your the only friend of mine.  
Please to meet you, hello goodbye.

#### Bridge

Oh, I wish I was a better man  
Oh, but i'm stuck with goodbye as I am

I'm jaded, I'm hated. Your the only friend of mine.

She's so sick of me begging forgiveness.  
Cause you and I, we both know I did this.  
I'm jaded, I'm hated your the only friend of mine.  
Please to meet you, hello goodbye.

Please to meet you, hello goodbye.
