Lay down your sword and gun,  
Lay down your soldier's arms.  
Got to make it right,  
All we've done  
Is to war and fight,  
On and on.

Lay down your sword and gun,  
Lay down your soldier's arms.  
You don't wanna die so far from home  
But to take a life, destroys your soul.

Precious life  
Precious life  
Precious life

Lay down your swords and guns now.  
Lay down your swords and guns now.  
Lay down your swords and guns now.  
Lay down your swords and guns.

Precious life  
Precious life  
Precious life  
Precious life

Lay down your swords and guns now.  
Oh, lay down your swords and guns now.

Precious life, precious lights are on.  
Precious life, and precious lights are on.
