If the sun goes behind a cloud  
And you feel it's gonna rain  
If the moon ain't shinin' bright  
And the stars, the stars won't  
Shine for you tonight

If life gets hard to understand  
Your love life is out of hand  
Just come to mama  
Come up to mama

If you need a satisfier  
Let me be, let me be, let me be  
Your pacifier  
If you feel like your hearts  
Breakin' into bits  
Call my number 568-6969

I'll give you a fix  
'Cause I got your favorite toy  
Guaranteed to bring you joy  
Just come to mama  
Come up to mama  
If your soul is on fire

Let me take you  
To my only heart's desire  
Just come to mama  
Come up to mama  
Just come to mama  
Come up to mama
