Anything but leave (T. Lyndsey)  
If you dont wanna be the kind of man I need  
Baby, pick yourself off the ground, pack up your pride,  
and dont forget your keys  
Honey, Ive things to do  
Sorry they dont include stroking your ego till its quiet,  
playing your Mom, and taking care of you  
I need to tell you something  
Yes, I have so much in me my darling  
See I, I need some space to breathe (Darling, wont you  
give it to me)  
And you, you cant be my everything (Youre not that  
reliable)  
Youll do anything I need you to but leave  
Well I am so confused by what you put me through  
You know my hearts not in this bed and baby my head  
is not in you  
If I were ready for love, maybe this thing would do  
But the fact is Im an actress and your 15 minutes are  
through (chorus)  
Theres no frog or Prince Charming when it comes to  
you, my darling  
Cinderella, she would never be friendly, no, with a girl  
like me  
I know you think that eventually Ill play roles theyre  
casting  
See me cry and pout till you oblige me on bended knee  
(Chorus)
