Is there something going on around me

Is there something I should know?

The ghost of paranoia slips into my mind

And the dust it settles in

It's getting harder to remember

Just what it is I need to say

Another shadow in the memory

I'll never be the same again

So tell me where the fire is

And why is everybody running

For all I know I could be losing my mind

And the dust it settles in

Whoa - Lost inside my mind

Is there something going on around me

Is there something I should know?

Everything just seems to vanish in the haze

And the dust it settles in

Whoa - Lost inside my mind

In my head... long to shed...

Now we all are one

Whoa - Lost inside my mind

Inside my mind
