Roll on (8 times)

We'll roll on with our heads held high

Our conscience in the gutter

Our dreams up in the sky

We'll roll on with our heads held high

Our conscience in the gutter

Our dreams up in the sky

The shipyard's deserted on the docks on
Melbourne town

The wharfies standing strong

They gathered round to see what the union had to say

There's too much work and not enough pay

Say

We'll roll on with our heads held high

Our conscience in the gutter

Our dreams up in the sky

We'll roll on with our heads held high

Our conscience in the gutter

Our dreams up in the sky

We'll protest in peace, keep the whole thing quiet

The last thing needed is a wage-fuelled riot

Cos they don't really care
They're always standing there
Running from the outside
From the outside
Running from the outside world
Do you really care?
Why are you standing there
Filming for the outside world?
Do you really care?
Why are you standing there
filming for the outside world?
Five weeks had passed when the union made it clear
Spirits slowly faded and the end was getting near
You see you're all expendable and when all is said and
done
You'll go back to work tomorrow
Or meet your new replacement, son!
Roll on (3 times)
We'll roll on with our heads held high
Our conscience in the gutter
Our dreams up in the sky
We'll roll on with our heads held high
Our conscience in the gutter
Our dreams up in the sky
Roll on (13 times)
