

Living End, The "Short Notice"

I said I wanna see you
I really ment I wanna leave you
I said I wanna touch you
I really ment I wanna punch you
I said i wanna kiss you
I'm never going to miss you

If you had a clue you would never stay
If I told the truth I would have to say
We're going round, round, round

Short notice- and now it's time to go
Misguided - shot down when you didn't know
Short notice - And now it's time to go

I said I want to feel you
I really ment I want to kill you
I said i couldn't refuse you
I really ment I should've used you
I said, I wanna love you
I really am above you
