Kill all the flag waving, red blooded  
Young, Yankee boys,  
String their torsos up  
And use their dicks as toys.

Nuke every U.S. city  
Blow them to the sky,  
Every single fucking Yank  
Deserves to fucking die.

Then get all the mothers  
And every apple pie,  
And gun them down with M-16s  
Aimed at their eyes.

Round up every U.S. citizen  
All except the Jews,  
Take that lot to Israel  
And wipe that lot out too.

And then get all the Vietnamese  
That were napalmed to death,  
And everyone from El Salvador  
And Cuba and Chile and the rest,

And say "Look, the Yanks are gone,  
The world is once again free  
No more napalm, no more C.I.A.  
No more Wounded Knee."

And when they are all celebrating  
Nuke the fucking lot,  
There'll be lots of jellied gasoline  
In every baby's cot.

And then load an M-16  
Give it plenty of feeling,  
Put it to your temple  
Blow your brains onto the ceiling.
